

Solution to no saving of recordings & pictures In Win7

When System installing the administrator account has been closed, so we need to open administrator account, follow steps as below:

Start->Searching "cmd"->right click on cmd.exe-> chose run as administrator;

Then write in "net user Administrator/Active: yes", then ENTER;

Restart OR Logoff PC, administrator account will be shown in sign in interface. Please sign in with administrator account, then sign in ip camera device through IE, then u will save recordings and pictures successfully
